Ripley UDC building plans, 1897-1974.

The main series of building plans deposited in the Record Office covers the period 1897 to 1974, in a single series of running numbers from 1 to 10607.

The series has many gaps; these fall into two categories, envelopes which were found to be empty, and envelopes which were missing (these have been marked in the list with an asterisk). Early envelopes were mechanically numbered so some of the missing plans may not have been there when the series was created.

These records were deposited in September 1975 and December 1985

The first volume overlaps with Ripley Local Board. There appear to be several gaps in this series. The 1899-1901 volume is labelled Vol.7. which suggests there are three missing before this date. The 1902-1905 volume is in very bad condition having been damaged by damp.
